Every five years, the Bay County Transportation Planning Organization (TPO) undergoes a Transit Development Plan (TDP) Major Update. With a ten-year implementation program, the major update reviews the vision, goals and objectives, existing transit services, and plans for future transit needs. This workshop will showcase recommendations for potential transit operations modifications as well as potential service and route changes.

Your feedback and input is vital and is encouraged to help improve transit in Bay County. Join Bay Town Trolley riders, Bay Area Transportation users, and business and community leaders in discussing transit needs during the upcoming public workshop.
